Lab 5: springs and masses

Group	Mass (g)	Period (s)	Spring constant (N/m)
A	100	0.63	9.9
B	150	0.77	10.0
C	200	0.89	10.0
D	250	1.00	9.9
E	300	1.09	10.0

Three ways to measure g

	Pendulum	Falling ball	Inclined track
Measured g (m/s²)	9.79	9.84	9.71
Uncertainty (m/s²)	0.03	0.08	0.12
Trials	20	15	10
Main error	Timing by hand	Air drag	Friction
